4 RISKS of Using Generative AI

1. Risk of copycat content

- Use a tool like Grammarly or Copyscape to check for plagiarism.

2. Lack of quality control

- There is absolutely no substitute for humans doing the final editing and proofreading. This should be non-negotiable!

4 RISKS of Using Generative AI - continued

3. Inconsistent brand voice

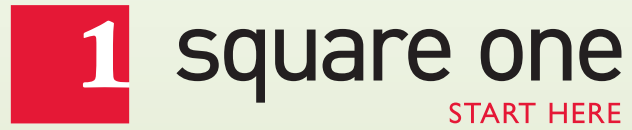

- Have guidelines and enforce a style guide when using generative AI writing tools.

4. Factual errors

- Have a fact-checking process in place as part of your proofreading routine.
